

BOWERS METROLOGY (UK) LTD

26 Jan 2010

Bowers' All-Inclusive Gauge Resource

Bowers Metrology UK is proud to announce the launch of its largest ever Metrology Catalogue. In addition to featuring Bowers' comprehensive range of high-quality gauges, the all-inclusive 260 page publication contains a large variety of cost-effective measuring instruments from renowned Group member Moore & Wright.

Reflecting UK industry's growing demand for material testing instruments, the vastly expanded Bowers CV Instruments section boasts a new range of quality bench and portable hardness testers, an expanded choice of surface finish instruments and many other cost effective material testing devices.

Many new products can be found throughout the catalogue, including innovative new Bowers Bore Gauges in addition to a wide range of high-quality instruments from leading manufacturers such as Sylvac, Trimos, Gagemaker and Wyler. Bowers claims that this easy to use, all inclusive metrology reference is an invaluable resource for all those engaged within the areas of accurate measurement, material testing and quality control.

To order your copy of the new Bowers 2010 catalogue simply email catalogue@bowers.co.uk
